

Proposer's Endorsement

In endorsing John's application for the role of Minister Provincial I have looked carefully at the role description.

John is a person of integrity and someone who feels passionately and thinks deeply. He is a person of compassion who is a good listener and someone who I believe would have effective pastoral oversight.

He is someone who would wish to ground the vision in practical ways but ensuring that it is in accordance with the example of both Francis and Clare.

John will be an asset in his administrative abilities but more importantly in working together with others in a spirit of humility rather than control. He will also work to seek closer links between local areas and Chapter.
